## Licensure Offices Do Make a Difference

License offices in Missouri can have a tremendous impact on the quality of an individual's life. In fact, the question asked can initiate discussion between family members about life-saving organ and tissue donation. What is this very important question? The question that is required to be asked of every patron seeking a Missouri driver's license, permit, or non-driver's license card is: "Do you wish to have your name placed in a registry as a potential organ donor?" By asking the question, staff at license offices throughout the state play an important part in saving an individual's life that is in critical need of an organ or tissue transplant.

answers any questions the family has, and the family makes the decision.

As an example, between January 1 and December 31, 2005, the Midwest Transplant Network (blue area on map) recorded:

Total Approaches	153
In Registry	26 (17% of the 153)
Consented	20 (77% of the 26)

An amazing 77% of families of individuals in the organ donor registry learned of and/or knew of their family member's wishes, and carried out those wishes. This impacted not only the 20 individuals that received a transplant, but also their families, friends, employers, co-workers, etc.

What would the same basic scenario look like if 75% had said yes to the registry at their local license office?

Total Approaches	153
In Registry	115 (75% of the 153)
Consented	88 (77% of the 115)

Quite a difference isn't it? You play a crucial role in keeping an individual on the registry. Please be sure to ask all of your patrons if they want to be an organ and tissue donor.

**You can and do make a difference!**
